Can we use creative expression to break the bias? YES, BECAUSE...

- It allows to express emotions
- It allows to bring awareness
- It allows to join others
- It is a safe place to start talking about issues
- Educates others
- It is a force for change

My Anti-Bias Checklist

- How I see others
- What I dislike about others
- How prejudice I am of other cultures, gender identity, age, class, socio economic status, mental health, etc.
- How much I accept other cultural values
- How open I am to learn from others
- Do I play a role model to family and children by confronting biased behaviour
